

Haldimand-Norfolk Cultural Association

Goals/Mission/Background

The Haldimand-Norfolk Cultural Association represents cultural organizations and institutions in the Haldimand/Norfolk Area, providing a forum for communication and co-operation. The association aims to educate members and the general public, with the goal of attracting attention to and promoting tourism and cultural life; and further to raise money to meet the association's goals.

Any cultural organization within the Haldimand/Norfolk area is eligible to be part of the association, providing it is a non-profit organization with a history of, or potential for, community programming. Interested individuals and non-profit organizations with goals in common with the mission statement may also join as associate members. There shall be no pecuniary gain to members. Over the past few years the group has focused on professional development and networking opportunities. Invitations have been extended to non-members to attend seminars and training workshops which have broad appeal.

Sponsors/Partners/Supporters
