 - x. For revenue generating opportunities, an RFP may be used but is not required. If a RFP process is used for revenue generating opportunities, terminology and formulas will be inverted accordingly to determine the highest Revenue Per Point.

4.03 Other Processes

a. Blanket Order Contracts

Blanket Order Contracts occur as a result of a previous competitive bid, which establishes the successful Bidder as the preferred source for Goods or Services, over a specified term.

- i. A Blanket Order Contract may be used where:
 - one or more Divisions repetitively order the same Goods or Services and the actual demand is not known in advance;
 - a need is anticipated for a range of Goods and Services for a specific purpose, but the actual demand is not known at the outset, and delivery is to be made when a requirement arises; or
 - it is beneficial for the municipality to enter into a multi-year contract for Goods or Services to provide efficiencies or economies of scale and continuity of a deliverable.
- ii. To establish prices and select sources, a Manager shall employ a procurement method contained in this Policy for the acquisition of Goods, Services or Construction.
- iii. The Blanket Order Contract shall contain corporate standard language provided by the Manager of Support Services. The User Division shall maintain each contract in accordance with its terms and conditions. Blanket Order Contracts should define source and price or percentage discount with the selected Supplier(s) for all frequently used Goods or Services.
- iv. More than one Supplier may be selected when it is in the best interest of the County and the Bid solicitation process allows for more than one awarded Supplier.
- v. Purchasing action initiated by a Division for frequently used goods or services shall be made with the Supplier(s) listed in the Blanket Order Contract.
- vi. The bid documents shall list the expected quantity of the specified goods or services to be purchased over the time period of the agreement and will be as accurate an estimate as practical and be based, to the extent possible, on previous usage adjusted for any known factors that may change usage.

b. Rosters

A Roster is the result of a Request for Roster Candidates process, which pre-qualifies Consultants to be placed on a list where they will be provided an opportunity to perform certain work for the County as it becomes available. Rosters should only be used by Divisions who have frequent requirements that are similar in nature over a course of one to three years.

- i. Rosters may only be used to obtain Consultants.

- ii. Once Consultants have been selected through the pre-qualification method outlined in Section 4.03 (f), the qualified Consultants are placed on the Roster according to their applicable categorized field of expertise (ie; water & wastewater; roads; bridges; etc), and as defined within the Request for Roster Candidate document. The number of Consultants placed on a Roster should reasonably reflect the County's requirements over a period of three years.
- iii. When services are required, the Roster for the appropriate categorized field of expertise is utilized to select the Consultant. The User Division shall provide the Consultant(s) with a detailed scope of work and deliverables. The Consultant(s) shall provide the User Division with a project schedule for deliverables, resource list, pricing, etc., as requested by the User Division. The User Division shall review all documentation to determine which Consultant is providing the best value, ensuring the proposal will meet the budget, schedule and intent of the work requirements. The User Division is permitted to negotiate with the Best Value Bidder, as required, to bring the project within budget without changing the scope of work and deliverables. If the User Division is unable to successfully negotiate to their satisfaction, the User Division shall proceed to another Consultant on the appropriate category Roster.
- iv. For corporate consistency, the Manager of Support Services shall be Roster Captain and shall ensure that all Awards follow the intent of the Request for Roster Candidate document. The User Division, in accordance with the goals and objectives of this policy, shall provide all documentation required to engage the Consultant for each project.
- v. A Roster will be valid for a period no longer than three years from the date it was established, at which time a competitive bidding process will be conducted to re-establish the Roster.
- vi. Purchases awarded to a Consultant on a Roster shall not exceed \$100,000 per project, including applicable net taxes, and a Bid Award Form must be completed for each Award.

c. In House Bidding

Haldimand County will not consider In House Bids for goods, services or construction.

d. Unsolicited Proposals

Unsolicited proposals must be in writing, detailing information on a product or service that may provide the County with significant value and/or savings. Unsolicited proposals may be accepted and a contract entered into for a maximum of one year, without a competitive bid process, providing the total annual expenditure is less than \$75,000.

e. Cooperative Purchasing

Haldimand County will participate in any cooperative purchasing initiative, including the Vendor of Record Agreements provided by the Ontario Supply Chain Management, that provides economies of scale and is deemed beneficial to the County. The policy of the public authority calling the cooperative Bid opportunity is to be the accepted policy for that particular purchase, unless additional terms specific to the County are negotiated with the Successful Bidder.

f. Request for Pre-qualification (RFPQ)

- i. A RFPQ may be issued to pre-qualify Vendors for various projects or purchases. The purpose of a RFPQ is to determine whether the qualifications of a Bidder, as required by the County, are acceptable in order to allow participation in a subsequent bidding opportunity that takes place as a direct result of the Request for Pre-qualification.
- ii. A Vendor may be pre-qualified by providing an acceptable response to a Request for Pre-Qualification or a Request for Roster Candidates. Selection of pre-qualified vendors will be based on fully disclosed evaluation criteria, which may include: experience from similar work; verification of applicable licenses and certificates; and financial capability.
- iii. As a result of pre-qualification, the County will only allow those pre-qualified Vendors to participate in the bidding process for the scope of work and/or services as specified in the RFPQ or RFRC document.
- iv. Pre-qualification may be done: on a project specific basis; for a group of projects that are similar in scope for which the same category of Supplier would be utilized; or for Roster development.

g. Request for Expression of Interest (RFEI)

Requests for Expression of Interest are used to assess Supplier capabilities, or to conduct market research, without the intention of evaluating the responses or awarding a contract. A RFEI may not be used to pre-qualify a potential Supplier and must not influence their chances of being a Successful Bidder on any subsequent purchasing opportunity. The information received may be used for the purposes of developing future documents for a subsequent competitive process.

h. Sole and Single Sourcing

- i. Sole Sourcing is a method of procurement whereby a purchase is made without a competitive bidding process due to the fact that the Supplier is the only source of supply for the required goods or services. Sole Sourcing will be permitted if one or more of the following circumstances apply:
 - A Supplier has a patent on the required product, thus creating a monopoly market;
 - Where there is an absence of competition for technical reasons and the goods or services can be supplied only by a particular Supplier and no alternative or substitute exists;
 - For a Contract to be awarded to the winner of a design contest;

- For the purchase of original works of art;
 - For the procurement of subscriptions to newspapers, magazines or other periodicals.
- ii. Single Sourcing is a method of Procurement whereby there is more than one Vendor able to supply the required Goods or Services but the purchase is made without a competitive bidding process. Single Sourcing will be permitted if one or more of the following circumstances apply:
- The purchase is in accordance with Section 4.01(a);
 - The supply involves an emergency purchase as outlined in Section 4.03 (k);
 - Disclosure of information in an open competition would breach some duty of confidentiality or compromise security;
 - In the absence of receipt of any bids in response to an open call for competitive bids.
 - The supply relates to compatibility with existing products or to specialized products that must be maintained by the manufacturer or its representatives;
 - For work to be performed by a Contractor according to provisions for a warranty or guarantee held in respect of the property or the original work.
- iii. The use of Sole or Single Sourcing exceeding \$20,000 must be reported, including the reason, to the Manager of Support Services for semi-annual reporting purposes.
- iv. In order for a Division to sole or single source for goods or services for reasons other than those outlined above, an operating strategy must be presented and approved by Council, outlining the rationale. Input must be sought from the Manager of Support Services to ensure the purchasing principles in this policy are taken into consideration.

i. Non-Competitive Purchases/Exemptions to Competitive Bidding

Competitive bid solicitation is not required for items outlined in Schedule "C".

j. Negotiation

- i. Negotiation may only be used under the following circumstances:
- those outlined in Sections 4.03 (b), (d), (h) and (i);
 - with respect to RFPs, RFTs and RFQs, the County may enter into negotiations with the lowest Price Per Point bidder or the lowest compliant Bidder, respectively, if the bid price exceeds the budgeted amount for the project.
