

Notice of Completion

Haldimand County Jarvis Master Servicing Plan Update and Class Environmental Assessment for Additional Wastewater Treatment Capacity

Master Servicing Plan: Haldimand County initiated a Master Plan under the Class Environmental Assessment (Class EA) framework to update the existing Master Servicing Plan for Jarvis Urban Area. The purpose of the Master Plan was to update the four (4) servicing components (water, wastewater, stormwater, and transportation) to reflect updated land use and growth forecasts in the study area, and also identify updates to existing conditions. The Master Plan identifies a number of servicing strategies over a 20-year planning period based on existing and future servicing constraints. A Master Plan Update Report has been completed containing details of the proposed and preferred alternatives.

Class EA for Wastewater Capacity: The County also undertook a Class EA to determine the preferred alternative to increase the wastewater treatment capacity for Jarvis. The recommended option is to send excess sewage to the Townsend lagoons via a forcemain. No expansion of the Jarvis or Townsend lagoons is required. The proposed works represent a Schedule A+ project (pre-approved) under the Class EA framework. A summary report containing details of the considered and preferred alternatives has been completed.

By this Notice, the Master Plan Update Report and Class EA Report are being placed on public record for a thirty (30) day review period. Interested persons may review these documents and provide comments to the County within this thirty (30) day period. Subject to comments received as a result of this Notice, as well as funding opportunities and the receipt of necessary approvals, the County may then proceed with the works.

The Master Plan Report and Class EA Report are available for review beginning on August 23, 2019. A copy of the completed reports is available at the Jarvis Library (2 Monson St., Jarvis, ON) and Cayuga Administration Building (45 Munsee Street North, Cayuga, ON).

Please send any comments by September 22, 2019 to:

Comments: Any information collected during the review period will be managed in accordance with the Freedom of Information and Protection Act. With the exception of personal information, all comments will become part of the public record. If concerns arise regarding the projects, which cannot be resolved in discussion with the County, a person or party may request the Minister of the Environment, Conservation and Parks to order a change in the project status and require a higher level of assessment under an individual Environmental Assessment process (referred to as a Part II Order). Part II Order Request Forms are available online on the Forms Repository Website (www.forms.ssb.gov.on.ca) by searching "Part II Order". Reasons must be provided for the request. Requests must be received by the Minister within thirty (30) calendar days of this Notice.
