

## Engineering & Capital Works Department

The Engineering & Capital Works Department is comprised of three Divisions and is generally responsible for Capital Infrastructure Programs in the areas of facility repairs, roads, bridges, water mains, sanitary sewers & storm sewers, and water & wastewater plants.

### **Student Assistant, Capital Projects**

**2020 Rate – \$18.90 / hour; 35 hours / week, Monday to Friday**

Under the guidance of the Facilities Capital & Asset Management – Capital Projects team, you will be involved in construction projects which can include design, on-site inspections, estimating/procurement and project management duties. The position also includes involvement in legislated inspections, drafting and other related clerical duties.

To be considered for this position, you must be enrolled in College (Technology) or University (Engineering or Architecture) and be returning to school on a full-time basis in September, 2020.
